

ADVANCED EPILEPSY AWARENESS

Overview

Our advanced epilepsy awareness course is ideal for care sector staff and teaches them about the causes, effects and different types of epilepsy. This training takes a more hands on approach than the basic awareness course, ensuring that delegates know how to deal with someone suffering from an epileptic fit, including how to administer emergency medication such as Buccal Midazolam and Rectal Diazepam.

Outline of Programme

- Introduction to epilepsy.
- Causes and effects.
- Triggers.
- Varying types of epileptic seizure.
- What to do when someone has a seizure.
- Emergency medication.
- Living with epilepsy.
- Laws and legislation.

Assessment

The advanced epilepsy awareness course runs over 3 hours and delegates will be expected to engage in several group activities. Our experienced trainers will be on hand to help guide participants through these sessions and a certificate will be awarded upon completion.

Cost

Our courses are competitively priced, and we aim to beat any equivalent training quote.

Important Information

- The training venue should be quiet and undisturbed.
- Staff should not be expected to be on duty.
- Staff attending should remain for the entire length of the session.
- Flexible dates available.
- Call to book a day that suits you.
