

ADVANCED MEDICATION AWARENESS

Overview

This advanced medication awareness course is designed for team leaders and senior or experienced carers whose role involves assisting with medication. Training focuses on the importance of recording and reporting the administration of medicines and covers other ways in which the risk of errors can be reduced. Delegates will learn about different types of medication and how they are administered and disposed of correctly. This course ensures that delegates are fully prepared to support patients and administer their medication safely and accurately.

Outline of Programme

- Roles and responsibilities.
- How to administer medicines.
- MAR charts.
- Disposal of medication.
- Errors.
- Causes and effects.

Assessment

Advanced Medication Awareness takes around 3 hours and delegates will be expected to engage in several group activities. Our experienced trainers will be on hand to help guide delegates through these sessions and a certificate will be awarded upon completion.

Cost

Our training courses are competitively priced, and we aim to beat any equivalent training quote.

Important Information

- The training venue should be quiet and undisturbed.
- Staff should not be expected to be on duty.
- Staff attending should remain for the entire length of the session.
- Flexible dates available.
- Call to book a day that suits you.
