

CIEH HYGIENE IN HEALTH & SOCIAL CARE (LEVEL 2)

Overview

The Department of Health has published a code of practice acknowledging that everyone involved in care provision needs training to tackle the risk of Health Care Acquired Infection (HCAI). As such, this new CIEH Health and Safety qualification for Hygiene in Health and Social Care is suitable for all staff working in private, public and voluntary healthcare sectors and provides a useful introduction to hygiene and infection control. Delegates will also come away from the course knowing what they can do to ensure that vulnerable individuals are not exposed to avoidable risk, how to maintain infection control and in what way they should contribute to ensuring that their workplace is clean and safe.

Outline of Programme

- What are hygiene hazards?
- Personal hygiene best practice.
- Cleaning best practice.

Assessment

The CIEH hygiene in health and social care training course takes around 3 hours and delegates may be expected to engage in several group activities. Our experienced trainers will be on hand to help guide participants through these sessions and a certificate will be awarded upon completion.

Cost

Our courses are competitively priced, and we aim to beat any equivalent training quote.

Important Information

- The training venue should be quiet and undisturbed.
- Staff should not be expected to be on duty.
- Staff attending should remain for the entire length of the session.
- Flexible dates available.
- Call to book a day that suits you.
