

DISPLAY SCREEN EQUIPMENT AWARENESS

Overview

This course is designed for anyone who regularly uses a computer for either work or recreational purposes, with delegates gaining an understanding of computer health and safety or expanding on what they already know. Training is designed in line with HSE guidelines and equips delegates with a knowledge of how to adjust a workstation to meet these guidelines, whilst also fulfilling personal requirements.

Outline of Programme

- Introduction and explanation.
- What is display screen equipment?
- Legal framework and HSE guidelines.
- Hazards and potential health effects.
- Common misconceptions.
- Users and those at risk.
- Conducting an assessment.
- Follow-up.

Assessment

The display screen equipment awareness training course takes approximately 3 hours to complete and delegates will be expected to engage in several group activities. Our experienced trainers will be on hand to help guide participants through these sessions. Successful candidates will be awarded certification with a validity of 12 months.

Cost

Our courses are competitively priced, and we aim to beat any equivalent training quote.

Important Information

- The training venue should be quiet and undisturbed.
- Staff should not be expected to be on duty.
- Staff attending should remain for the entire length of the session.
- Flexible dates available.
- Please call to book a day that suits you.
