FIRE SAFETY AWARENESS

Overview

In compliance with the Regulatory Reform (Fire Safety) Order 2005, all new staff must attend at least a basic level of fire safety training. This course ensures that delegates meet these legal requirements and are equipped with the essential understanding of workplace fire safety; this includes fire extinguisher types and uses, fire safety precautions, common causes of fires, and how best to act in the event of a fire to ensure the safety of themselves and others.

Outline of Programme

- Dealing with fires safely and efficiently.
- Colour coding of various fire extinguishers and their uses.
- Fire doors, smoke alarms and sprinklers.
- Chemical reactions and other common causes of fires.
- Preventing the start and spread of fires.

Assessment

The fire safety awareness training course takes around 3 hours and delegates may be expected to engage in several group activities. Our experienced trainers will be on hand to help guide participants through these sessions and a certificate will be awarded upon completion.

Cost

Our courses are competitively priced and we aim to beat any equivalent training quote.

Important Information

- The training venue should be quiet and undisturbed.
- Staff should not be expected to be on duty.
- Staff attending should remain for the entire length of the session.
- Flexible dates available.
- Please call to book a day that suits you.
