

# PERSON CENTRED CARE

## Overview

This training teaches delegates the importance of seeing their patients as unique individuals, so they can develop suitable interventions to match any specific patient requirements. Delegates will understand how their method of working can affect their patients and will therefore maintain appropriate working boundaries. They will also gain the skills required to create specific care plans for each patient whilst ensuring that they protect the confidentiality of every person under their care.

## Outline of Programme

- What is person centred care?
- Developing an individual's care plan.
- Understanding the big picture.
- Confidentiality.
- How do our working practices affect individuals?
- Maintaining boundaries.

## Assessment

The person-centred care training course takes around 3 hours and delegates may be expected to engage in several group activities. Our experienced trainers will be on hand to help guide participants through these sessions and a certificate will be awarded upon completion.

## Cost

Our courses are competitively priced, and we aim to beat any equivalent training quote.

**Important Information**

- The training venue should be quiet and undisturbed.
- Staff should not be expected to be on duty.
- Staff attending should remain for the entire length of the session.
- Flexible dates available.
- Please call to book a day that suits you.
