

STROKE AWARENESS

Overview

This course is ideal for those who are currently employed, or looking to work, in the healthcare sector. The training is particularly useful for staff working with patients who are at high risk of suffering a stroke, but nevertheless, it would add value to a range of care settings. Delegates will be taught how to identify the symptoms and effects of a stroke and will also be introduced to the standard treatment methods and their side effects.

Outline of Programme

- Identifying the symptoms of a stroke.
- Who is at risk of a stroke?
- Treating individuals who have had a stroke.
- Rehabilitation for stroke sufferers.

Assessment

Stroke Awareness training will take around 3 hours and delegates will be expected to engage in several group activities. Our experienced trainers will be on hand to help guide delegates through these sessions and a certificate will be awarded upon completion.

Cost

Our courses are competitively priced, and we aim to beat any equivalent training quote.

Important Information

- The training venue should be quiet and undisturbed.
- Staff should not be expected to be on duty.
- Staff attending should remain for the entire length of the session.
- Flexible dates available.
- Call to book a day that suits you.
