

RQF LEVEL 5 DIPLOMA IN HEALTH AND SOCIAL CARE

Overview

The RQF Level 5 in Health and Social Care course is equivalent to a Higher National Diploma (HND) and is the UK industry standard for those looking to become a leader within health and social care services. Delegates who complete this internationally recognised qualification will gain the occupational competence and skills necessary to lead across health and social care settings when working with adults. The course has a series of mandatory units which will provide delegates with fundamental working knowledge, and they will also complete optional units which will allow them to customise the programme.

Outline of Programme

The RQF is completed by achieving 90 credits from a variety of different units.

Our assessment process consists of an evaluation of work-based performance. This requires delegates to put together a portfolio of evidence demonstrating that they can achieve the course objectives to the required standard.

To assist delegates, we appoint an RQF assessor who will help assemble the portfolio and guide the delegate through the process. Email and telephone support is also on hand for the duration of the training and the resources available to training delegates will be outlined by the assessor.

This course is accredited by Pearson and will help your organisation to meet the conditions and standards required by the Care Quality Commission. This course is fully compliant with
